Enterprise Track A: Project Udyam Digital

AI voice agent
Hindi

Udyam One

Making small businesses go digital in one sitting

Accel Business's AI front door. AI voice agents on WhatsApp, a phone call or the web take a small business from interested to live, in its own language.

AI voice agents | WhatsApp, call or web | Every Indian language | Live in days

PROBLEM STATEMENT

India's **6 crore+ small businesses** are ready to go digital, but a sales journey built for corporates **loses 93 of every 100 who ask.**

01 The opportunity

6 crore+

MSMEs that need more than a SIM

02 The journey today

- Sales visit
- PDF quote — 3-5 days
- Paper KYC
- Installation — 10-14 days
- Separate bills

03 The cost

93 of 100 interested businesses never go live

17.6 days to activate

3 status calls

₹15,000 to acquire one SMB

Why it matters

1. **A huge, under-served market**
   MSMEs now need broadband, SIMs, a WhatsApp channel, cloud, security and CCTV. Most buy each piece from a different vendor, with no single bill.

2. **A journey built for corporates**
   A sales visit, a PDF quote in 3-5 days, paper KYC and 10-14 days to install, then a separate bill and support number for every product.

3. **Revenue walking away**
   In one quarter, 4,632 of 5,000 interested businesses never went live. Each one that did cost ₹15,000 to win.

Fix the journey, and the same leads become twice the customers.

PROPOSED SOLUTION

Udyam One is Accel Business's **AI front door**: **AI voice agents** take a small business from interested to live in one conversation, then keep it growing.

How Udyam One works

1. **Voice agents, any channel**
   Owners just talk on WhatsApp, a phone call, the web or in a store. The voice agent replies in their language.
2. **AI agents do the work**
   Advisor, quote, KYC, install, billing, care and growth agents act for the owner, from the first message to live service and beyond.
3. **Trusted by design**
   Prices come only from Accel's catalogue. KYC is verified with GST, Udyam, DigiLocker and Aadhaar eSign, with DPDP consent.
4. **People where they add value**
   Partners and the field force take complex sites, with the whole conversation in hand.

TECHNICAL APPROACH

A GenAI advisor works on top of rule engines and trusted sources, so **KYC is near-instant** and stays compliant with the **DPDP Act, 2023: consent, purpose limitation and data minimisation.**

How a request flows

1. **Reach us**
   WhatsApp, the web app or a phone call with the voice agent. Partners and Accel ops use the back-office.

2. **Secure entry**
   The gateway checks every request and keeps all screens in sync, live.

3. **Advisor and agents act**
   The GenAI advisor recommends from the catalogue; agents run KYC, book the install and send updates.

4. **Smart KYC, compliant**
   GSTIN and Udyam lookup, DigiLocker, OCR and e-sign. PII is redacted before the AI; data is encrypted and every action is logged.

COMPETITIVE ANALYSIS

Others sell one product through a form. Udyam One sells **the whole business bundle through AI voice agents, in the owner's language**, backed by **Accel's reach.**

	Field sales visit	Digital-first players	Local reseller	Generic chatbot	Udyam One
Full bundle on one bill	✓	✗	◒	✗	✓
Needs discovery by voice, in your language	◒	✗	✓	◒	✓
Instant, transparent monthly price	✗	✓	✗	✗	✓
Near-instant KYC, no paperwork	✗	◒	✗	✗	✓
Live order tracking on WhatsApp	✗	◒	✗	✗	✓
Field force and partners behind it	✓	✗	✓	✗	✓

Our moat

Catalogue-grounded AI
Never invents a price or a plan

Vernacular voice
22 Indian languages, no forms

Accel's reach
Field force, partners and stores behind every lead

Learning loop
Every conversation sharpens bundles and lead scores

Why Udyam One wins

1. **The whole bundle, not one product**
   Digital-first players sell a single product through a form. We design the full business bundle, on one bill.

2. **Built for Bharat**
   Voice agents speak the owner's language, so a kirana owner is as comfortable as a CA firm.

3. **Accel's reach as a multiplier**
   Field force, partners and stores carry every lead the AI starts, so the channel grows instead of competing.

The only option that ticks every box for the owner, and only Accel can run it.

FEASIBILITY AND VIABILITY

Udyam One runs on what Accel already owns, **starts with 80% of the SMB base** and **pays back in under 3 months.**

Who we serve first

Micro retail & services 55% of SMBs	Fibre, business SIM, cloud POS with UPI	₹2,457/mo	Wave 1
Professional offices 25%	Fibre with backup, cloud email, endpoint security	₹3,366/mo	Wave 1
Multi-site businesses 15%	4 sites: fibre, failover, CCTV, POS, SD-WAN, one bill	₹25,204/mo	Wave 2
Small manufacturers 5%	Leased line, firewall, machine IoT, SIMs	₹31,946/mo	Wave 3

Prices from Accel's catalogue, before GST

Rollout

under ₹8,000
to acquire one SMB, from ₹15,000

under 3 months
payback on a micro-retail bundle

80%
of SMBs covered in Wave 1

Why it works for Accel

1. **Runs on what Accel owns**
   Uses Accel's catalogue, network, billing, field force and partners. No new stores, no new sales force.

2. **Start with 80% of SMBs**
   Wave 1 is micro retail and professional offices, piloted in two contrasting markets: Lucknow (costliest to win today) and Pune (Marathi-first Tier 1 metro).

3. **Pays back fast**
   Cost to acquire falls below ₹8,000, so a micro-retail bundle earns it back in under 3 months.

4. **Built on Accel's own data**
   Prices from the 25-product catalogue; baselines and a lead-scoring model from 5,000 leads (its top 20% holds 2.15x the conversions); KYC checked against the GSTIN and Udyam registries.

IMPACT AND BENEFITS

Same leads, same budget: **twice the businesses live, at about half the cost each, in less than half the time.**

2x
businesses live from the same leads

7 days
to activate, down from 17.6

under ₹8,000
to acquire one SMB, down from ₹15,000

₹98 crore
extra yearly revenue per 1 lakh leads

Metric	Today		Target
Lead-to-activation conversion	7.4%	→	14%
Time to activate	17.6 days	→	7 days
Cost of acquisition	₹15,000	→	under ₹8,000
6-month churn	15%	→	10%
Status chases per customer	3	→	under 1

Business owners | Accel Business | Local partners | Field force | Digital India

Who gains

1. **Business owners**
   Online in one sitting, in their own language, with one bill and one number to call.
2. **Accel Business**
   Twice the customers from the same leads and budget, with revenue starting 10 days sooner.
3. **Partners and field force**
   Ready leads with full context. Partners keep their commission; the field force focuses on large sites.
4. **Digital India**
   More small businesses on UPI, cloud tools and secure connectivity.

Baseline: smb_leads.csv, April to June 2026. ₹98 crore = 6,640 extra activations per 1 lakh leads × ₹12,351 average monthly bundle × 12.
